12V JUMP PACK

24V JUMP PACK

Built to last, the 12V Start•All® Jump•Pack starts the toughest semi-truck batteries on demand.

- **Hyperboost technology** provides an instantaneous energy transfer to the battery the moment the cables are properly connected
- Potential starting usable amps: 10,000
- 133,200 5s joules
- Protect•All™ safety features include: reverse polarity, low voltage protection, short circuit protection, overheat protection, overdischarge protection
- Charges smart phones and other mobile electronics
- Weighs 11.1 lbs

Designed specifically for military equipment, buses, farm equipment and construction machines.

- **Hyperboost technology** transfers instantaneous energy to the battery upon connection of the cables, instantly jump starting diesel up to 16.0L
- Potential starting usable amps: 5,000
- 116,500 5s joules
- Protect•All™ safety features include: reverse polarity, low voltage protection, short circuit protection, overheat protection, overdischarge protection
- Rapidly recharge smart phones, tablets, cameras and more
- Weighs 11.1 lbs

Includes: carrying case, AC wall adapter and 12V auto charger for recharging the unit, 8-in-1 laptop adapters, 3-in-1 electronics adapter, safety strap and clip

Includes: carrying case, AC wall adapter and 12V auto charger for recharging the unit, 8-in-1 laptop adapters, 3-in-1 electronics adapter, safety strap and clip

3-IN-1 AIR COMPRESSOR / GENERATOR / WELDER

AIR N ARC 150

This Air N Arc® 150 provides you with three forms of power in one compact and economic unit, allowing you to save space and weight on your vehicle. Provides up to 190 amps of welding power and a 30 gallon air reservoir tank.

SPECIAL FEATURES

- Fuel system can be integrated with the chassis
- Powder coated sheet metal for protection
- 100% duty high frequency welder offering excellent weld characteristics
- Galvannealed steel metal
- Heavy duty belt driven system for anti-vibration and long service intervals

AIR COMPRESSOR

- Reciprocating compressor
- Cast iron air pump with 3 cylinder head design for better cooling

GENERATOR

- True two generator system for safe multi-functioning of welder and electric tools
- Independent AC power for safe multi-functioning
- Brushless design
- Smooth wave for minimal distortion
- Two 120V outlets and one 240V outlet provided

WELDER

- Patented amperage and power controls built into welding lead for ease of use
- 100% variable completely controllable, no preset settings
- Independent welding generator
- Auto throttle controls

Specifications

- 14 HP Kohler® engine
- 30 gallon air reservoir tank
- 20 CFM compressor
- 5 kW AC generator
- 1.9 gallon fuel capacity
- 150 amp DC CC weld
- 20' weld cables w/amp control on electrode holder
- Dimensions (w/fittings): 50.7" L x 19.2" W x 40.8" H
